Old Farm Surgery Privacy Notice

This privacy notice describes the data, the practice holds about you, why we hold it, where and how we store it, how long for and how we protect it.

It also tells you about your rights under the Data Protection Legislation and how the law protects you.

Who we are and what do we do?

Old Farm Surgery, 67 Foxhole Road, Paignton TQ3 3TB

Contact number [01803 556403](tel:01803556403)

Old Farm Surgery is a Data Controller for the data we hold about you. We hold your data in order to provide you with health and social care.

What is personal data and what data do we use?

Your personal data is any information that can be connected to you personally. If you can be identified from the data, it is personal data.

The types of personal data we use and hold about you are:

- Details about you: your name, address, contact number, email address, date of birth, gender and NHS number. We may also hold information about your emergency contact, next of kin and carer.
- Details about your medical care: medical diagnosis, record of treatment received, referrals, history of prescribed medication, results of investigations such as X-rays, research participation etc.
- Information provided by you: this includes correspondence relating to feedback, concerns and complaints about the service you have received.
- Relevant information from other healthcare professionals, relatives or those who care for you.
- All telephone calls from and to Old Farm Surgery are recorded for training and monitoring purposes.

We may also hold the following information about you:

- Religion or other beliefs of a similar nature.
- Family, lifestyle and/or social circumstances.

- Employment details.
- Financial details.

When we collect your mobile number, we use it to text you to remind you of appointments via an NHS approved provider, Accurx.

When we collect your email address, we use it to email you information regarding Practice News, this is usually contained within our bi-monthly newsletter and also any immunisation campaigns.

We may also email you in response to a complaint/feedback if this was sent in via email and this is your preferred method of contact.

The Practice may use your mobile number or details, such as name, date of birth & NHS number, to send out invites for patients to book into vaccination clinics or services via a system called Accubook which is provided by Accurx.

We may also email or text you about the following:

- Administrative information e.g. your prescription being ready to collect.
- Care plan sent in a consultation e.g. dosing of new medication.
- Recall e.g. advising the patient to book an appointment.
- Advice and safety netting sent in a consultation e.g. link to NHS information or MSK exercise videos.
- Signposting to third-party services in a consultation e.g. exercise classes.
- Normal test results e.g. chest x-ray normal.
- Some abnormal results e.g. Low Vitamin D, with advice for sun exposure or OTC supplements.
- Telephone information.
- Reminder e.g. for cervical screening or overdue blood tests.
- Follow-ups.
- Relevant immunisation campaigns.
- Practice news and/or updates.

If you no longer wish to receive communication by text message, email or both, please let a member of staff know who will be able to update your preferences.

Patients who dissent from the use of their mobile number will be identified by the reporting process and their data not used in this way.

Why do we process your data and what legal basis do we have to process your data?

To process your personal data or share your personal data outside of the practice, we need a legal basis to do so. If we process or share special category data, such as health data, we will need an additional legal basis to do so.

We rely upon Article 6(1)(e) (public interest task) and Article 9(2)(h) (health and social care) for most of our processing and sharing, in particular to:

- Provide you with health and social care.
- Share data from, or allow access to, your GP record, for healthcare professionals involved in providing you with health and social care.
- Receive data from or access your data on other NHS organisation clinical systems.
- Work effectively with other organisations and healthcare professionals who are involved in your care.
- Ensure that your treatment and advice, and the treatment of others is safe and effective.
- Participate in National Screening Programmes.
- Use a computer program to identify patients who might be at risk from certain diseases or unplanned admissions to Hospitals.
- Help NHS Digital and the practice to conduct clinical audits to ensure you are being provided with safe, high-quality care.
- Support medical research when the law allows us to do so.
- Supply data to help plan and manage services and prevent infectious diseases from spreading.

We rely upon Article 6(1)(d) (vital interest) and Article 9(2)(c) (vital interests) to share information about you with another healthcare professional in a medical emergency.

We rely upon Article 6(1)(e) (public interest task) and Article 9(2)(g) (substantial public interest) to support safeguarding for patients who, for instance, may be particularly vulnerable to protect them from harm or other forms of abuse.

We rely upon Article 6(1)(c) (legal obligation) and Article 9(2)(h) to share your information for mandatory disclosures of information (such as NHS Digital, CQC and Public Health England).

We rely upon Article 6(1)(c) (legal obligation) and Article 9(2)(f) (legal claims) to help us investigate legal claims and if a court of law orders us to do so.

We rely upon Article 6(1)(a) (consent) and Article 9(2)(a) (explicit consent), in order to:

- Help the practice investigate any feedback, including patient surveys, complaints or concerns you may have about contact with the practice.
- Help manage how we provide you with services from the practice, for example, when you nominate individuals to contact the practice on your behalf.
- Share your information with third parties, for example, insurance companies and medical research organisations.
- Help GP trainees to improve consultation techniques, via audio and/or visual recordings.
- Contact you if you have signed up to our patient participation group.
- Send you practice updates.

We also use anonymised data to plan and improve health care services.

Specifically, we use it to:

- Review the care being provided to make sure it is of the highest standard.
- Check the quality and efficiency of the services we provide.
- Prepare performance reports on the services we provide.

Healthcare staff will respect and comply with their obligations under the common law duty of confidence.

Common law duty of confidentiality

Healthcare staff will respect and comply with their obligations under the common law of duty of confidence. We meet the duty of confidentiality under one or more of the following:

- You have provided us with your explicit consent
- For direct care, we rely on implied consent.
- We have approval from the Confidentiality Advisory Group (CAG)
- We have a legal requirement to collect, share and use the data
- On a case-by-case basis, we will share information in the public interest.

How do we collect your data?

The practice collects data that you provide when you:

- Receive treatment or care from the practice.
- Contact the practice by telephone (all telephone calls received and made by the practice are recorded and kept for 3 years), online or in person.
- Complete a form electronically or in paper.
- Contact the practice via a Social Network (for example if you communicate with the practice through Facebook).
- Visit the practice's website (If cookies are enabled).

We may also collect data from family members or carers to support your care.

We receive information about you from other providers to ensure that we provide you with effective and comprehensive treatment. These providers may include:

- The GP Practices within the Paignton & Brixham Primary Care Network.
- Other GP Practices.
- NHS Trusts/Foundation Trusts.
- Devon Integrated Care Board (ICB).
- NHS Commissioning Support Units (CSUs).
- Community Services (District Nurses, Rehabilitation Services and out of hours services).
- Ambulance or emergency services.
- Independent contractors such as Pharmacies, Dentists and Opticians.
- Local authorities.
- Multi-Agency Safeguarding Hub (MASH)
- Police and Judicial Services.
- Educational Services.
- Fire and Rescue Services
- NHS 111.
- The Care Quality Commission, ICO and other regulators
- UK Health Security Agency

- Office for Health Improvement and Disparities
- NHS England.
- Non-NHS health care providers.
- Public Health England and Screening.
- Research providers.
- DPT.
- Community Mental Health Multi-Agency Teams.

Who do we share your data with?

In order to deliver and coordinate your health and social care, we may sometimes share information with other organisations. We will only ever share information about you if other agencies involved in your care have a genuine need for it. Anyone who receives information from the practice is under a legal duty to keep it confidential and secure.

Please be aware that there may be certain circumstances, such as assisting the police with the investigation of a serious crime, where it may be necessary for the practice to share your personal information with external agencies without your knowledge or consent.

We may share information with the following organisations:

- The GP Practices within the Paignton & Brixham Primary Care Network.
- Other GP Practices.
- NHS Trusts/Foundation Trusts.
- Devon Integrated Care Board (ICB).
- NHS Commissioning Support Units.
- Community Services (District Nurses, Rehabilitation Services and out of hours services).
- Ambulance or emergency services.
- Independent contractors such as Pharmacies, Dentists and Opticians.
- Local authorities.
- Multi-Agency Safeguarding Hub (MASH).
- Police and Judicial Services.
- Educational Services.

- Fire and Rescue Services.
- NHS 111.
- The Care Quality Commission, ICO and other regulated auditors.
- UK Health Security Agency
- Office for Health Improvement and Disparities
- NHS England.
- Non-NHS health care providers.
- Research providers.
- Rowcroft Hospice.
- Community Mental Health Multi-Agency Teams.
- Joy Social prescribing software.
- DPT.
- Primary Mental Health Multi Agency Teams.
- Webpost.
- Organisations who are delivering services on behalf of the practice (for example completing Subject Access Requests and Medical Reports with your consent.
- Child Health Information Services (CHIS).
- Thrive Tribe Serious Mental Health Review Team.
- University of Oxford / ORCHID

In addition to sharing data with the above services, the practice will also use carefully selected third party service providers that process data on behalf of the practice.

When we use a third-party service provider, we will always have an appropriate agreement in place to ensure that they keep the data secure, that they do not use or share information other than in accordance with our instructions and that they are operating responsibly to ensure the protection of your data.

Examples of functions that may be carried out by third parties includes:

- Organisations that provide IT services & support, including our core clinical systems; systems which manage patient facing services (such as our website and service accessible through the same); data hosting service providers; systems which facilitate video consultation, appointment bookings or electronic prescription services; document management services etc.

- Organisations who are delivering services on behalf of the practice (for example conducting Medicines Management Reviews to ensure that you receive the most appropriate, up to date and cost-effective treatments or supporting practices in offering choices of providers and appointments to patients who are being referred via the NHS E-Referral system).
- Delivery services (for example if we were to arrange for delivery of any medicines to you).
- Mailing services to enable practice communications to be mailed to patients.
- Payment providers (if for example you were paying for a prescription or a service such as travel vaccinations).

Artificial Intelligence

We use AI platforms to support and enhance the services that the practice delivers. When you interact with the practice, some of the information you provide may be processed by these AI tools to use to respond or complete your request.

We only share the minimum information needed and we do not allow AI providers to learn from your information. We ensure that any AI platforms are thoroughly assessed and meet NHS requirements.

In the majority of circumstances in which we use AI, we will ask you for your permission to do so and if you do not want the practice to use your information, you can opt-out.

Where do we store your data?

We use a number of IT systems and tools to store and process your data, on behalf of the practice.

Examples of tools we use include our Core Clinical System EMIS, NHSmail and Microsoft 365.

Other systems and tools we use:

Accurx Patient Triage

Patients can contact the practice online using Accurx Patient Triage. Information submitted through Accurx is securely transferred to the practice and used to help manage and respond to patient requests. Accurx acts on behalf of the practice and stores information securely in accordance with NHS information governance requirements.

Further information can be found at: <https://www accurx com/privacy-policy>

Surgery Connect

A cloud-based telephony system known as Surgery Connect. Surgery Connect is designed to improve communication experiences for patients. Reducing queue wait times and allowing for additional services to provide an overall improved telephony experience.

Surgery Connect software is provided to us by the third-party NHS approved service provider X-on Health.

All callers will be informed at the start of their call that all calls to and from the practice are recorded for training and monitoring purposes.

By contacting Old Farm Surgery via telephone, you are agreeing to have your conversations recorded and information stored.

Your information is stored on a secure server located in the UK. You have the right to request copies of your recorded calls, as well as the right to request your recorded calls are deleted.

Old Farm Surgery can access, listen to, and download your call recordings. Recordings will be automatically deleted after 3 years.

Further information can be found in the FAQ section of the Surgery Connect website [Surgery Connect | Digital Transformation Made Easy](#)

Abtrace

A clinical decision support tool that analyses data within the Electronic Health Record (EHR) to help clinical and administrative staff identify required activities for patient management. Abtrace reads and writes directly to your record and uses AI technology to support analysis, prioritisation and decision making, helping with recall and monitoring for certain populations, such as patients with Diabetes, COPD, Asthma, and other long-term conditions.

Features include real-time information, automated recall processes and patient messaging with self-booking links.

Abtrace is approved for use in the UK and Europe, has been tested by doctors, and is designed to help provide safe and efficient care while making administrative work easier

For more information on Abtrace, please find their privacy policy here: <https://www.abtrace.com/privacy-policy>

Video Consults

If required the practice may consult patients via video consultation, this will be done after a telephone discussion and with consent from the patient. The Practice may consult you via video for the following:

- Routine chronic disease check-ups, especially if the patient is stable and has monitoring devices at home.
- Administrative reasons e.g. re-issuing sick notes, repeat medication.
- Counselling and similar services.
- Duty doctor/nurse triage when a telephone call is insufficient.
- Any condition in which the trade-off between attending in person and staying at home favours the latter (e.g. in some frail older patients with multi-morbidity or in terminally ill patients, the advantages of video may outweigh its limitations).
- In order to consult safely via video consult the Practice will use AccuRx which is the agreed platform for Old Farm Surgery and has been endorsed by NHS Devon ICB

Closed-Circuit Television (CCTV) and Video Entry System

Our practice uses CCTV and a video entry system for the safety and security of patients, visitors, staff and property. The video entry system allows reception staff to communicate with visitors and control access to the building.

CCTV cameras are located in key internal and external areas of the practice. Images are recorded continuously and retained securely for 30 days, unless required for the investigation of an incident. Access to recordings is restricted to authorised staff only.

CCTV images may be shared with the police or other authorities where we are legally required to do so.

The use of CCTV and the video entry system is necessary for our legitimate interests in maintaining a safe and secure environment.

GP Connect/Interoperability/Enhanced Data Sharing

We share your record using GP Connect/Enhanced Data Sharing Module to make sure that, whether you are visiting the practice, attending hospital, or being seen in the community or at home by a care professional, everyone knows the care you need and how you want to be treated. Your electronic health record is available to the practices in Paignton & Brixham.

PCN and other local providers Brunel Medical Practice, Catherine House Surgery, Chelston Hall Surgery, Chilcote Surgery, Compass House Medical Centre, Corner Place Surgery, Croft Hall Medical Practice, Dartmouth Medical Practice, Leatside Surgery, Old Farm Surgery, Pembroke House Surgery and Southover Medical practice who are involved in your care. This includes the sharing of personal contact details, diagnosis, medications, allergies and test results. Your records will be treated with the strictest confidence and can only be viewed if you use their service.

Please note that if you have previously dissented (opted-out) to sharing your records, this decision will be upheld, and your record will only be accessed by the practice.

Should you wish to opt-out, please speak to the Practice Manager, who will be able to update your personal preferences. Please note that by opting out of this sharing, other health professionals may not be able to see important medical information, which may impact on the care you receive.

General Practice Data for Planning and Research Data Collection (GPDfPR)

As well as using your information to support the delivery of care to you, your data may be used by NHS England to help improve the way health and social care is delivered to patients and service users throughout England. From the 1st September 2021, NHS England will securely extract your information to provide access to patient data to the NHS and other organisations who need to use it, to improve health and social care for everyone.

NHS Digital will primarily use your information in a way that does not identify you (your information will be pseudonymised). However, they will be able to use their software to identify you in certain circumstances, and where there is a valid legal reason to do so.

NHS England may also share your information with third parties such as Local Authorities, primary care networks (PCNs), integrated care boards (ICBs), research organisations, including universities, and pharmaceutical companies.

At the time of publication (April 2025), patients who have a “type 1” opt- out, will be excluded from this programme and will not have their data extracted for this purpose.

Further information about GPDfPR can be found on [NHS website](#).

We will rely on Legal Obligation (Article (6)(1)(c)), Health and Social Care (Article 9(2)(h)) and Public Health (Article (9)(2)(i)) as the legal basis for processing your data for this purpose.

Summary Care Record (SCR)

NHS England have implemented the SCR which contains information about you; including your name, address, data of birth, NHS number, medication you are taking

and any bad reactions to medication that you have had in the past. This information is automatically extracted from your records and uploaded onto a central system.

Many patients who are seen outside of their GP Practice are understandably not able to provide a full account of their care or may not be in a position to do so. The SCR means patients do not have to repeat their medical history at every care setting and the healthcare professional they are seeing is able to access their SCR.

The SCR can only be viewed within the NHS, on NHS smartcard-controlled screens or by organisations, such as pharmacies, contracted to the NHS.

As well as this basic record, additional information can be added to include further information. However, any additional data will only be uploaded if you specifically request it and with your consent.

You can find out more about the SCR on [NHS website](#).

National Screening Programmes

The NHS provides national screening programmes so that certain diseases can be detected at early stages. These screening programmes include bowel cancer, breast cancer, cervical cancer, aortic aneurysms and a diabetic eye screening service. More information on the national screening programmes can be found on the [Government website](#).

Risk Stratification

Your medical records will be searched by a computer program so that we can identify patients who might be at high risk from certain diseases such as heart disease or unplanned admissions to hospital. This means we can offer patients additional care or support as early as possible.

This process will involve linking information from your GP record with information from other health or social care services you have used. Information which identifies you will only be seen by this practice. More information can be found on [NHS Risk stratification page](#) or speak to the practice.

One Devon Dataset

As well as using your data to support the delivery of care to you, your data may be used to help improve the way health and social care is delivered to patients and service users throughout Devon using Population Health Management methods. We will use a pseudonymised extract (i.e. not identifiable information) which will be sent securely to NHS Devon ICB (Integrated Care Board) and in partnership with the Local Authorities.

Data will be used to support the Devon Integrated Care System to improve short-term and medium-term health outcomes for local populations. If you would benefit from

some additional care or support, your information will be shared back to the practice, or another local provider involved in your care, so that they can offer you direct care.

Further information about Population Health Management can be found on [What is integrated care](#) page (NHS website)

Further information about the One Devon Dataset can be found on [Devon government website](#).

We will rely on public interest task as the legal basis for processing your data for this purpose. You have a right to object to your information being used in this way. If you wish to discuss this further, please contact our Practice Manager.

Devon and Cornwall Care Record (DCCR)

Health and social care services in Devon and Cornwall have developed a system to share patient data efficiently and quickly and, ultimately, improve the care you receive.

This shared system is called the Devon and Cornwall Care Record.

It's important that anyone treating you has access to your shared record so they have all the information they need to care for you. This applies to your routine appointments and also in urgent situations such as going to A&E, calling 111 or going to an out-of-hours appointment.

It's also quicker for staff to access a shared record than to try to contact other staff by phone or email.

Only authorised staff can access the Devon and Cornwall Care Record and the information they see is carefully checked so that it relates to their job. Also, systems do not share all your data – just data that services have agreed is necessary to include.

For more information about the Devon and Cornwall Care Record, please go to <https://www.devonandcornwallcarerecord.nhs.uk/>

Research

We are a research practice and work with NIHR Clinical Research Network South West Peninsula to deliver research studies and trials. Employees of the practices will access your information in order to determine whether you are suitable to be invited to participate in a study.

We will only share your information with the research providers with your explicit consent. Further information regarding the research providers can be found on [Nih website](#).

Population Health Analytics

As well as using your data to support the delivery of care to you, your data may be used to help improve the way health and social care is delivered to patients and service users throughout Devon using Population Health Management methods.

We will only use a pseudonymised extract (ie. not identifiable information) which will be sent securely to NHS Devon ICB and in partnership with Optum. Optum have been appointed to provide technical assistance to NHS Devon ICB and use the data to support the Devon Integrated Care System to improve short term and medium-term health outcomes for local populations.

Please note that at no time will patient identifiable data be used in the delivery of this programme. Patients who have a Type 1 opt-out will be excluded from this programme and will not have their data extracted for this purpose.

Further information about Population Health Management can be found on [NHS website](#).

We will rely on Public interest task as the legal basis for processing your data for this purpose.

Oxford Royal College of General Practitioners Clinical Informatics Digital Hub (ORCHID)

Old Farm Surgery participates in the Oxford Royal College of General Practitioners Clinical Informatics Digital Hub (ORCHID), a secure research, surveillance and quality improvement platform operated by the University of Oxford.

As part of this arrangement, information from the clinical system may be extracted and pseudonymised before being transferred to ORCHID for approved research, surveillance, quality improvement and evaluation activities. Pseudonymised data means that direct patient identifiers are removed and replaced with coded identifiers.

Patients who have registered a Type 1 Opt Out or National Data Opt Out will have their preferences respected in accordance with the ORCHID arrangements.

Further information can be found at <https://orchid.phc.ox.ac.uk>

OpenSAFELY

NHS England has been directed by the government to establish and operate the OpenSAFELY COVID-19 Service and the OpenSAFELY Data Analytics Service. These services provide a secure environment that supports research, clinical audit, service evaluation and health surveillance for COVID-19 and other purposes.

Each GP practice remains the controller of its own GP patient data but is required to let approved users run queries on pseudonymised patient data. This means identifiers are removed and replaced with a pseudonym.

Only approved users are allowed to run these queries, and they will not be able to access information that directly or indirectly identifies individuals.

Patients who do not wish for their data to be used as part of this process can register a [type 1 opt out](#) with their GP.

Here you can find [additional information about OpenSAFELY](#).

Clinical Practice Research Datalink (CPRD)

This practice contributes to medical research and may send relevant data to CPRD. CPRD collects de-identified patient data from a network of GP practices across the UK. Primary care data is linked to a range of other health related data to provide a longitudinal, representative UK population health dataset. Further information regarding CPRD can be found on their [transparency information page](#).

Safeguarding

Sometimes we need to share information so that other people, including healthcare staff, children or others with safeguarding needs, are protected from risk of harm. These circumstances are rare. We do not need your consent or agreement to do this.

How long do we hold your data?

We only hold your data for as long as necessary and are required to hold your data in line with the NHS Records Management Code of Practice for Health and Social Care 2016 Retention Schedule. Further information can be found online at: <https://digital.nhs.uk/article/1202/Records-Management-Code-of-Practice-for-Health-and-Social-Care-2016>

The following fall outside of the NHS Records Management Code of Practice for Health and Social Care but are kept for the following, call recordings for 3 years and insurance reports 7 years.

What rights do you have?

You have various rights under the UK GDPR and Data Protection Act 2018:

Right of access:

You have the right to request access to view or request copies of the personal data, we hold about you; this is known as a Subject Access Request (SAR). In order to request access, you should:

Submit a subject access request form, along with your ID to the Practice, we will then begin the process of putting together your SAR.

Please note that you are entitled to a copy of your data that we hold free of charge; however, we are entitled to charge in certain circumstances where the law permits us to

do so We are also entitled to refuse a request, where the law permits us to do so. If we require a fee or are unable to comply with your request, we will notify you within 1 calendar month of your request.

Right to restrict or object the use of your information:

There are certain circumstances in which you can object from your data being shared.

Information regarding your rights to opt-out is detailed below:

Consent:

If the practice is relying on the consent as the basis for processing your data, you have the right to withdraw your consent at any time. Once you have withdrawn your consent, we will stop processing your data for this purpose. However, this will only apply in circumstances on which we rely on your consent to use your personal data.

Please be aware that if you do withdraw your consent, we may not be able to provide certain services to you. If this is the case, we will let you know.

Summary Care Record:

The SCR improves care; however, if you do not want one, you have the right to object to sharing your data or to restrict access to specific elements of your records. This will mean that the information recorded by the practice will not be visible at any other care setting.

If you wish to discuss your options regarding the SCR, please speak to a member of staff at the practice. You can also reinstate your consent at any time by giving your permission to override your previous dissent.

National Screening Programmes:

If you do not wish to receive an invitation to the screening programmes, you can opt out at <https://www.gov.uk/government/publications/opting-out-of-the-nhs-population-screening-programmes> or speak to the practice.

Type 1 Opt-out:

You have the right to object to your confidential patient data being shared for purposes beyond your direct care by asking the practice to apply a Type 1 opt-out to your medical records.

A type 1 opt-out prevents personal data about you, being extracted from your GP record, and uploaded to any other organisations without your explicit consent. If you wish for a Type 1 opt-out to be applied to your record, please contact the Practice Manager.

National Data Opt-out:

You have the right to object to your data being shared under the national data opt-out model. The national data opt-out model provides an easy way for you to opt-out of sharing data that identifies you being used or shared for medical research purposes and quality checking or audit purposes.

To opt-out of your identifiable data being shared for medical research or to find out more about your opt-out choices please ask a member of staff or go to NHS Digital's website: <https://digital.nhs.uk/services/national-data-opt-out-programme>

Our organisation is compliant with the national data opt-out policy.

Cancer Registry:

The National Cancer Registration and Analysis Service is run by Public Health England and is responsible for cancer registration in England, to support cancer epidemiology, public health, service monitoring and research.

Further information regarding the registry and your right to opt-out can be found at: <https://www.gov.uk/guidance/national-cancer-registration-and-analysis-service-ncras>

Right to rectification:

You have the right to have any errors or mistakes corrected within your medical records. This applies to matters of fact, not opinion. If the information is of clinical nature, this will need to be reviewed and investigated by the practice. If you wish to have your records amended, please contact the Practice Manager.

If your personal information changes, such as your contact address or number, you should notify the practice immediately so that we can update the information on our system. We will also ask you from time to time to confirm the information we hold for you, is correct.

Right to erasure:

The practice is not aware of any circumstances in which you will have the right to delete correct data from your medical record, which the practice is legally bound to retain. Although you are free to obtain your own legal advice if you believe there is no lawful purpose for which we hold the data and contact the practice if you hold a different view.

Right to complain:

Please let us know if you wish to discuss how we have used your personal data, raise a concern, make a complaint or compliment. You can contact us at the Practice Manager.

You also have the right to complain to the Information Commissioner's Office. If you wish to complain follow this link: <https://ico.org.uk/global/contact-us/> or call the helpline on [0303 123 1113](tel:03031231113).

International Transfers

Most of the personal data we process is stored within the UK. Where information is processed outside the UK, we will ensure appropriate contractual and technical safeguards are in place to protect your information and comply with UK data protection legislation.

Data Protection Officer

The Data Protection Officer for the practice is Bex Lovewell and she can be contacted via email on d-icb.delttdpo@nhs.net or by post: Delt Shared Services limited, BUILDING 2 – Delt, Derriford Business Park, Plymouth, PL6 5QZ.

Cookies

The practice's website uses cookies. A cookie is a small file, typically of letters and numbers, downloaded on to a device (like your computer or smart phone) when you access certain websites.

Cookies allow a website to recognise a user's device. Some cookies help websites to remember choices you make (e.g. which language you prefer if you use the Google Translate feature). Analytical cookies are to help us measure the number of visitors to our website.

The two types the practices uses are 'Session' and 'Persistent' cookies. Some cookies are temporary and disappear when you close your web browser, others may remain on your computer for a set period of time. We do not knowingly collect or intend to collect any personal information about you using cookies. We do not share your personal information with anyone.

What can I do to manage cookies on my devices?

Most web browsers allow some control of most cookies through the browser settings. To find out more about cookies, including how to see what cookies have been set and how to manage and delete them, visit <http://www.allaboutcookies.org/>

Website Analytics and Site Search

Our website includes a search function to help users find information published on the website. Please do not enter personal information such as your name, NHS number, address or details of your medical care into the search box. The search function is not linked to your medical record or our clinical systems. Search terms may be recorded as part of website analytics.

Changes to privacy notice

The practice reviews this privacy notice regularly and may amend the notice from time to time.

If you wish to discuss any elements of this privacy notice, please contact the Practice Manager
